## 19th Century Flemish Oak Mirror Back Sideboard

### DESCRIPTION

This is a lovely quality solid oak 19th century flemish mirror back sideboard. We painted it in our own workshops 15 years ago and have recently had the pleasure of re-offering it. In the mean time it has 'matured' having formed a good colour and patination. It has two figures...a male playing a flute and a female playing a madalin. It has a bevelled glass mirror, two drawers and two cupboards. Would look great in many situations ...a real centre piece and very eye catching.

SOLD IN ORIGINAL CONDITION.
