Heals Dining Chair

DESCRIPTION

Made in solid oak, the Heals dining chair is one of our most popular models. The price includes our upholsters upholstering the seat for you. The only additional cost will be the material you choose it can be either fabric or leather and we have a great range to select from. We can help advise and guide you through the process. Please give Michelle a call on 01785 240444, she will be only too pleased to help.

The Heals Dining chair is one of my favourites, possibly due to the fact I'm a great fan of the Arts and Crafts movement. This is an extremely comfortable, solid oak, hand finished dining chair, suitable for a pub, restaurant or hotel.

Have a look as well at our Heals High Barstool
(<http://www.taylorsclassics.com/product/heals-high-height-barstool>).

Our price is based upon the customer supplying 0.3 metres of fabric per chair. If you would like to use leather to upholster the chair please contact our sales office.

CHE01L - Light Oak
