Glasgow Bench With Arms

DESCRIPTION

This is our own free standing Glasgow Bench with arms at each end. It is a heavy duty bench so it does not have to be fitted to a

wall and can easily be re-positioned if required. It is suitable for a pub, restaurant or hotel. It can be in both Mahogany or oak.

It is seen with a mahogany frame but we can also make it to order in oak. We can make it to any width you require. We can go round corners. The back is buttoned as standard but could be left plain. We have added gilt patri on this one but again we can add any embellishments you want.

Our price is based upon the customer supplying 1.8 metres of fabric per metre. If you would like to use leather to upholster the bench please contact our sales office.
